1000V

EGA Master ofrece una extensísima colección de herramientas de seguridad aisladas 1000V: alicates, destornilladores, llaves ajustables, cortacables de carraca, pinzas, cuchillos, tenazas, llaves fijas y de estrella, llaves de vaso (con sus correspondientes accesorios y juegos), arcos de sierra, etc.

EGA Master offers a huge range of safety 1000v insulated handtools: pliers, screwdrivers, adjustable wrenches, tweezers, knives, sockets, spanners, hacksaws...

EGA Master offre une vaste gamme d'outils isolés 1000v : pinces, tournevis, clés réglables, brucelles, couteaux, douilles, clés, scies à métaux...

Las herramientas aisladas de EGA Master cumplen con la normativa IEC 900 resp. DIN EN 60900, siendo sometidas todas ellas al test dieléctrico a 10.000 V (es decir, a una intensidad 10 veces mayor de la certificada). Las herramientas son objeto también de los tests de adherencia, penetración dieléctrica, impacto y propagación de llama, de acuerdo a la rigurosa norma europea.

EGA Master insulated tools comply with IEC 900 resp. DIN EN 60900 international standard, each one of the pieces being tested at 10,000V (10 times the voltage we certify). They are also tested rigorously according to what the norms establishes: adherence test, impact test, flame propagation test and dielectric penetration test.

Les outils isolés de EGA Master sont conformes aux normes du CEI 900 ainsi que la norme internationale DIN EN 60900. Chacunes des pièces sont testées à 10.000V (nous certifions 10 fois la tension). Elles sont rigoureusement testées suivant les normes établissent: essai d'adhérence, essai au choc, essai de propagation de flamme et essai de pénétration de diélectrique.

Instaladores eléctricos / Electrical installation Electriciens	Redes de alta tensión / High Voltage networks Réseaux hautes tensions	Industria química / Chemical Industry Industrie chimique
Centrales Eléctricas / Power Plants Centrales électriques	Redes de baja tensión / Low Voltage networks Réseaux de basse tension	Bomberos / Fire-fighters / Pompiers
Estaciones y subestaciones eléctricas Electric Stations and substations Stations et subdivisions électriques	Telecomunicaciones / Telecommunications Télécommunications	Instalación y reparación de alumbrado Lighting installation and repair Voiries et réseaux divers (VRD)

PRECAUCIONES / CAUTION / PRÉCAUTIONS

- 1 No emplear nunca la herramienta en aplicaciones bajo tensión si la protección presenta poros, fisuras, elementos incrustados o se ve la capa inferior de color blanco / Don't ever use tools under voltage if they present pores, fissures, encrusted elements or if the white insulation layer is visible / Ne jamais utiliser l'outillage en tension si la protection semble poreuse, présente des fissures, que des corps étrangers sont incrustés ou que la couche inférieure est blanche.
- 2 Se recomienda emplear suelos aislantes y calzado de seguridad en trabajos bajo tensión / Insulating floors and safety shoes are recommended to work under voltage / Pour des travaux sous tension, nous recommandons de travailler avec des tapis isolants et des chaussures de sécurité
- 3 Evite el contacto con agua mientras realice trabajos bajo tensión / Avoid contact with water while working under voltage / Il est recommandé d'utiliser lors du travail sous tension, un tapis d'isolation et des chaussures à semelles diélectriques
- 4 No tocar directamente ninguna pieza susceptible de estar bajo tensión. Emplear un comprobador de tensión o tester / Do not ever touch directly any item that may be under voltage. Use a voltage tester to check first / Ne jamais toucher directement, une pièce susceptible d'être sous tension.
